- 10.2 Manitouwadge High School: E-Learning  
MNHS Principal Brian Johnson provided a synopsis of the E-learning outcomes and insights realized in the last two years of program at SGDSB. He cited program benefits such as scheduling that could suit a student's timetable as opposed to a school's particular timetable and the elimination of the transition time between classes as well as in-class distractions. This past year MNHS offered Grade 12 History and a Calculus/Vector course. Among the challenges was establishing a teacher/student relationship, as each must commit to developing and maintaining communication via the technology and not a traditional classroom setting.

Design Steering Committee Meeting

**2.0 Presentation of School Plan:**

- Design committee raised concern about elementary students route to the gym through GCHS domain, i.e., minimize potential to encounter high school or Confederation College students during their trek to/from gym
- Jim Turner suggested sheltered area could be created by putting a corridor through the change area
- W. Chiupka will bring suggestion to architects as the idea has merit and potential, i.e., building a corridor as a walkway and a door into the gym
- Further suggestion was...move the fire doors up to augment the separation of Confederation College from school population
- A window to the corridor and the main foyer would be helpful to administration office

#### Parking

- Teacher parking for the high school will have to be worked out
- Parking will be as close as possible and still be legal
- W. Chiupka suggested that assigned parking may be an option employed

### **3.0 Updated Timelines**

#### 3.1 Project Timelines

- Comments from this evening will be incorporated
- Send this to architect to produce official drawing
- Tender in January 2010
- Close by February 2010
- Finalize contract March 2010
- Phase 1 would see concentration on high school pieces of the plan
- Phase 2 would be new build for BAPS
- Objective to have Sept 2011 opening of new BAPS

#### 3.2 Future Meetings of Design Committee and Communication

- P. Pella advised the committee's work on design essentially concludes as official drawings would incorporate the feasible suggestions offered over the last eight months

Director of Education  
Superior-Greenstone District School Board

12 Hemlo Dr.  
Marathon, ON, P0T 2E0

Dear Patti:

This letter is to inform you that I will be leaving my position as Superintendent of Education with Superior-Greenstone District School Board effective August 4, 2009. I have accepted a position with Lakehead Public Schools.

Faith Sakamoto-Crichton,  
Box 934,  
Nipigon, Ontario.  
July 29, 2009.

Ms. P. Pella,  
Director of Education,  
Superior-Greenstone District School Board,  
P.O. Bag A, 12 Hemlo Drive,  
Marathon, Ontario.

Dear Patti,

I am prompted to write this letter to you after the recent tragedy that struck one of the families of our community. I, among others, was stunned that an event of that magnitude could involve a child in our school community.

The situation confirmed to me the need for counseling in our schools. Up to now, George O'Neill Public School has had this service on a non-consistent basis, and I am wondering as well, its value to students, when numbers of students and time shared must be limited due to availability and costs. It is not always the "visibly" at risk students that require support. Furthermore, weekly or bi-monthly appointments fail to deal with immediate issues. Children (and adults) need to discuss their concerns when they occur and when emotions are fresh.

I am concerned that situations like this are solely supported "after the fact" (Tragic Events Teams, which, I realize are also critical) when, indeed, perhaps intervention as well, by a counselor could be another strategy as a **preventative** measure. I wish to suggest, then, consideration of a full-time counselor at George O'Neill P.S. in the near future, who is a specialist (child psychologist) and who has no ties to the community (objective) so that students can share their thoughts, feelings and concerns in confidence.

Finally, it must be recognized that life for many children in our communities is not an easy one. The recent mill closures and subsequent lack of employment add to already stressed families. I think that the system needs to provide as many avenues as possible to support the children at George O'Neill School. (and other schools) It is difficult to "engage" students that are not receptive to learning due to emotional needs that only a qualified professional can provide.

We already provide food for the body with our breakfast program. Let us also consider “food for the soul” with the support of a full-time counselor at George O’Neill School.

Thank you for your attention in this grave matter. I have truly been affected by this event.

Respectfully submitted,

Faith Sakamoto-Crichton

health, etc. Representatives from each of these groups met this summer to discuss the opportunities and challenges for implementation, notably the proposed mandates of the next three years. These include full-day Early Learning Programs for four and five year olds, the establishment of an Early Years Division at the Ministry of Education, the creation of an Early Years Policy Framework and curriculum, additional supports around parent engagement, and the mandate for municipal authorities to consolidate child/family programs. Pascal urges the province to provide sufficient funding to support this strategy.

### **Next Steps**

As we enter the Phase One Implementation stage, we have several factors already in place to set ourselves up for success:

1. The existence of Best Start Hubs/Early Year's Centers in seven of our schools
2. The strong relationships that exist within our communities with child care professionals and the commitment to formalizing these relationships in the near future with the development of a board policy on Early Learning.
3. The commitment to providing full day learning for four and five year olds is solid, as is the belief in

**SUBJECT:** Highlights- OSSLT Results, April 2009 (Superior-Greenstone DSB)

---

**Background**

The Ontario Secondary School Literacy test, (OSSLT), is designed to measure the reading and writing skills of Year 2 secondary students. It provides educators with one, current measure of a student's literacy skills with respect to the provincial standard. The successful completion of the Ontario Secondary School Literacy Test or its equivalent is a graduation requirement of all students in the province of Ontario. This is the sixth consecutive year of such testing in the province.

**Current Situation****Highlights of the OSSLT 2008 Results****Overall Results****Provincial**

85% of the 120,776 students taking the test for the first time across the province were successful compared to 82% of the 121,855 students taking the test for the first time in 2004. The provincial success rate on the OSSLT has been steadily increasing since 2004.

**Board**

79% of the 154 students taking the test for the first time across the board were successful compared to 75% of the 220 students taking the test for the first time in 2004. With the exception of the 2009 test year, the board success rate has increased or remained stable since 2004. For the first time since the inception of the OSSLT provincial testing, our board experienced a decline in the success rate of students writing the test. There was a decline of 4% in the 2009 board success rate (79%) from the 2008 board success rate (83%) for students writing the OSSLT.

**Gender Differences****Provincial**

88% of the successful, first time eligible and fully participating students in the province were females and 82% were males. Provincial statistics indicate that the success rate for males has increased by 3 percentage points and by 2 percentage points for females, respectively, since 2004.

**Board**

79% of the successful, first time eligible and fully participating students across the board were females and 78% were males. Board statistics indicate that the success rate for first time eligible and fully participating males has shown a net increase of 10 percentage points since 2004 while the success rate for female students has shown a net decline of 3 percentage points since 2004.
